

OUR SERVICE SHINES!

PROMPT, RELIABLE WASTE REMOVAL SOLUTIONS

Diamond Waste Services, Inc. is a Maryland company based near BWI airport, providing roll-off waste containers and waste removal solutions to the construction, industrial, commercial and residential markets. Our service area includes Baltimore, Washington DC., Anne Arundel, Prince George's, Harford, Howard and Montgomery Counties.

WANT TO SAVE TIME & MONEY?

When your waste removal provider is a “no show,” work crews are left waiting—costing you time and money. Call Diamond Waste. Our prompt, dependable service helps to keep your crews working—not waiting. Whether you need immediate, same day service or daily, long term, 24/7 scheduled removal solutions, you can rely on Diamond Waste to be there!

TALKIN' TRASH!

Well, we're not just talkin' trash here—we're moving it too! Diamond Waste is committed to providing courteous, attentive service to each customer. It's a priority for us. We strive to know you and understand the particular needs and challenges of your job. That way we can serve you better. We like to maintain close communication regarding pick-ups and scheduling—and we're flexible as your job site conditions change. There are no surprises with Diamond Waste. Every Diamond Waste truck is equipped with a two-way radio and GPS—so we always know the location and ETA of your next pick up. We take pride that our customers are never left guessing when their waste will be removed.

Our phones are answered 24/7—you will never get voice mail with Diamond Waste.

Diamond Waste is proud to have helped builders of the BAC/IMI National Training Center in Bowie, MD to achieve LEED Green Building certification for the facility (as seen in ENR, October 3, 2007).

LEED COMPLIANT SERVICES

Diamond Waste can provide a *turnkey solution* to help you meet the stringent recycling requirements of **LEED-Certified Green Building projects.**

SECURITY CLEARANCE

Diamond Waste meets security clearances to access secure installations such as airports, military bases and government facilities. Our staff is experienced with security procedures and will work with your operation to ensure safe, timely and compliant removal of waste materials.

SPECIALTY WASTE REMOVAL & RECYCLING SERVICES

Diamond Waste offers special service for the removal of materials such as creosote lumber, tires and contaminated soil. We also offer special service for the disposal of “metal only,” “wood only,” “concrete/masonry only” and other recyclables.

Project: Westchester Apartments at Cherry Lane; Location: Laurel, MD; Contractor: Fortune-Johnson; Completed: 2007.

DEMOLITION WASTE REMOVAL

Diamond Waste offers a demolition waste recycling program that can save your project money through reduced tipping fees, improved rates of recycling and higher quality recyclables. It's no secret that recycling can save your project money. Concrete and masonry aggregates, bricks, steel and other materials all have established markets for recycling that can be used to offset your demolition costs.

But there is a subtle art to maximizing those savings—choosing the right recycle methods that match job site conditions; specialty waste removal of creosote lumber, tires, etc.; practical logistical considerations and providing reliable service with excellent communication. In short: caring about it. This is where Diamond Waste excels—where **our service shines!** We have a proven track record in LEED compliant waste removal, and that experience can be put to work for you. Whether LEED compliance is the goal or not, recycling can save you money.

Project: Hampton Inn, Camden Yards; Location: Baltimore, MD; Contractor: Armada Hoffer; Completed: 2007.

Project: Park Place; Location: Annapolis, MD; Contractor: Donohoe Construction Co.; Completed: 2008.

YOU CAN RELY ON DIAMOND WASTE TO BE THERE—CALL US TODAY!

When the job schedule is critical and you need on-time, no-nonsense waste removal—call Diamond Waste! We'll get the job done. Reliably. After all, “Our Service Shines!”

Project: King Hall, US Naval Academy; Location: Annapolis, MD; Contractor: Forrester Construction Co.; Completed: 2008.

Project: Dryers Ice Cream Factory; Location: Laurel, MD; Contractor: Dennis Group; Completed: 2006.

HELPFUL TIPS

DO NOT FILL CONTAINERS WITH HAZARDOUS MATERIALS

If you have hazardous materials please call in advance to arrange special handling. Hazardous materials include: manure/fertilizer, municipal garbage, farming products, asbestos, industrial waste, newsprint, sealed drums or tanks of any kind, autos or parts, oil contaminated soil, tires, creosote (railroad ties or telephone poles), batteries, appliances containing freon, hazardous liquid or infectious waste. Hazardous material disposal fees can be expensive.

DO NOT OVERFILL CONTAINERS

Containers can only be filled to the top of the rim. Material over the top is potentially hazardous to our operators and other vehicles on the roadway. We can not pick up a container if it is loaded above the rim.

DO NOT EXCEED CONTAINER WEIGHT CAPACITY

Dense material will fill up to weight capacity before space inside the container is used up. For example, concrete, rock, sand and other heavy material can only be put in 15 or 20-yard containers to the 1/2 way mark. Diamond Waste can not pick up a container if it is over weight by any transportation related laws and/or guidelines.
